

# Containerized Systems

## Factory Built and Tested Mobile Packaged Plants

### General

Containers are pre-fabricated structures which are an excellent option to house a variety of VeloDyne systems. Containerized systems can be customized, allowing equipment to be installed and operated as complete, stand-alone structures or as mobile feed/handling buildings. Containers are suited for any application where space is a premium or mobility is key.

### Options:

- Heat
- Air Conditioning
- Electrical Outlets
- Lightning Control Panel

### Key Features

- *Containers come in 10', 20', or 40' Lengths*
- *Fully customizable to meet various applications*
- *All equipment is pre-installed and tested*
- *Can be used for Leg Supported Silo or Bulk Bag Frame delivery system*
- *Requires minimal site preparations*
- *Mobile Capabilities*
- *Ideal for remote locations with basic services*
- *Fully operational within 48 hours*

## Features

Each containerized system is engineered to your specifications with multiple options available. These systems can include:

- Leg Supported Silo
- Bulk Bag Frame-designed for 2-ton super sacks
- Storage hopper
- Volumetric screw feeder
- Wetting cone or Slurry make down/storage tank with mixer, and level devices
- Slurry feed pumps, if required
- All required piping and valves
- Local control system with programmable logic controller (PLC) including pre-programmed system logic. All systems are completely tested with water for engineer or customer viewing before leaving our facility. UL, CUL, and CSA control panel Certifications available.
- Systems are provided with all piping and conduit pre-assembled

## VeloDyne Advantages

Factory testing on all of our systems. These tests include:

- Pressure testing all pipes and valves
- Hydrostatic testing of our mix tanks
- Complete sequencing of all devices, including motors and solenoids
- All inspected by a VeloDyne quality assurance inspector

VeloDyne provides the most complete containerized systems on the market, ultimately saving time for the contractor and eliminating frustrating installation issues.

VeloDyne System's service and technical support staff are the most experienced in the industry.
